PROJECTS

Pet Store | *Js, Html, Css*
- Pet store offers a wide range of pets for sale, from dogs and cats to birds and reptiles, each with detailed descriptions and photos to help you choose the right pet for you.
- This website has a product section that includes all the filtering features available on any e-commerce website such as **categories,sort, search, price range, color, and grid and list views**
- If you click on any pet, **its single page will open** where you can find detailed information related to the pet . React's hooks and state management have been used for this, along with the use of **Redux** .

Library Management System | *React js , Html, Css*   **02-2023**
- The Library management systems are designed to store Books , helps in reducing operational costs. Managing a library manually is labor intensive and an immense amount of paperwork is involved.
- Google Book API used to display Books data with the help of Axios library.
- Fully responsive website and use react hooks ,router-dom.

Portfolio Website | *Html, Css, JavaScript*   **11-2023**
